

PrimeSyn Lab Inc.

Contract Analytical Lab

Specializing In Structural Characterization

Analytical Services:

- ♦ Circular Dichroism (CD)
- ♦ HPLC Analysis
- ♦ Gel Electrophoresis
- ♦ Fluorescent Spectroscopy
- ♦ Purity Analysis
- ♦ Mass Spectral Analysis
- ♦ Capillary Electrophoresis

Your success Our commitment

PrimeSyn Lab's Commitment:

- Complete Confidentiality
- Fast turn around
- Consistent, Reproducible, High Quality
- Stringent quality management system
- Integrity, reliability and excellence in service
- Excellence in meeting regulatory compliance
- All instruments validated (IQ/OQ/PQ)
- Comprehensive reporting with analytical data

HPLC Separation Profile of a Mixture of Oligos with Wobble Based Pair

Contract Analytical Services:

- Circular Dichroism (CD) and Melting Point analysis available under GMP conditions.
- Structural and Impurities Determination
- Purity Assays
- HPLC Analysis using Reversed-phase, Ion Exchange and Size Exclusion Chromatography
- Capillary Electrophoresis: Electrophoretic Separation
- Gel electrophoresis (1D/2D): Isoelectric focusing
- Fluorescence & UV Analysis
- Mass Spectrometry (LC/MS): Protein Identification and Characterization
- Method development
- Data Interpretation
- Consulting Services

PrimeSyn Lab Inc.

9 Ilene Ct. Bldg 6, Unit 1 and 2
